

MEMBERSHIP PROGRAM

FREQUENTLY ASKED QUESTIONS

What is the 1,000 Dreams Fund membership program?

An expansive student network of young women across the country who are interested in our mission: helping young women achieve their dreams. Not only do the members have exclusive access to a host of benefits, they have a chance to join us in the action and make a difference!

What are the membership requirements?

Members must be young women who are currently enrolled in high school or college.

How do you join?

The process is simple, if you fit our general membership requirements, simply sign up using your full name and email address on our student page: <http://1000dreamsfund.org/students-team/>. We'll reach out to you from there with more details and a virtual welcome package!

When can you join?

We have a rolling sign-up process, year round! The program officially begins in Fall 2017.

Can graduates join?

You must be currently enrolled in school – high school graduates may join if they are continuing on to higher education. Graduate school students are also welcome. If you're done with school and would still like to be a part of the 1,000 Dreams Fund community, consider joining our alumni network. Alumni stay up to date and are invited to our events around the country. If you're interested, email staff@1000DreamsFund.org.

Are members eligible for all 1,000 Dreams Fund challenges and micro grants?

Yes – we encourage all members to apply for our many scholarship opportunities. We will be in touch with each member as new grants are offered. However, Student Advisory Board members are ineligible.

What are the program benefits?

There are many benefits to our student network, including: a virtual welcome package, insider tips on scholarships and funding opportunities, access to our newsletters, resume, interview, internship and career advice, special invitation to our events near you, promotion on our social media – we can share your accomplishments, opportunity to be a published author on our blog and our best-selling guidebook to college, connection to other young women in the student network, and more!

Are there any fees?

The program is completely free!
